Health Tip:

Glaucoma

What is glaucoma?

Glaucoma is the name for a group of eye diseases that damage the [optic nerve](#). This nerve carries information from the eye to the brain. When the nerve is damaged, you can lose your vision.

Glaucoma is one of the most common causes of [legal blindness](#) in the world. At first, people with glaucoma may have very mild symptoms. But if the disease isn't treated, vision loss may get worse. It can lead to total blindness over time.

Easter Boggler Puzzle

How many words of 3 letters or more can you find using the letters below? Words are formed from adjoining letters. Letters must join in the proper sequence to spell a word and may join horizontally, vertically, or diagonally, to the left, right, or up-and-down. No letter square, however, may be used more than once within a single word. You may use plurals if available. Score 1 point for each 3 letter word, 2 points for 4 letter words, 3 points for 5 letter words and so on. Score an extra 2 points for every Easter themed word that you make!
